

Case Study

Kenny Roland

Good news story - Paid Employment!!!

Kenny Roland has been working as an official volunteer at Hartfield's Retirement Village since restrictions were lifted following COVID lockdown. Kenny has shown such determination and consistency they have offered him permanent paid employment beginning in September once Kenny returns from his very long six-week holiday in St Lucia. Kenny is ecstatic to accept further paid employment and will be working one day per week initially, to then increase to two days 9am - 2pm. Hartfield's are also updating and paying for his full DBS to be put in place before his employment start date. Fabulous work Kenny, it really couldn't have happened to a nicer young man.
