

# Picnic and Paint - The Art Gallery

It's summer term and learners are enjoying "Picnic and Paint" as one of their summer lesson choices.

Learners have enjoyed several sessions at the Art Gallery including a session exploring pencils, graphite and charcoal where they wandered around the Gallery taking in all the works of art, they chose their favourites pulled up a chair and sketched them. A separate session saw learners explore watercolours, they learnt how watercolour paints are made, the process of creating a landscape painting and the equipment they would need to create a painting in watercolour. Learners then created their own piece by choosing 3 objects, doing a wash and then going from light to dark building up the layers.

These sessions have been enjoyed by staff and students alike, a big thank you to Caroline, we look forward to seeing you again next week.
