

Independent travel, enabling and empowering

Bradley has embraced his new STEP's education programme and started his independent travel training with job coaches, Caroline and Suzanne. This week he has been practicing how to travel from home to college and from home to his work placement using public transport.

Bradley has returned to High Tunstall Labs this week to continue with his work placement as a lab technician, which he enjoys very much.

As Bradley stated only today, "Things in life become simple, when you practice them". Well done, Bradley, we are very proud of your achievements over the last four weeks!
