

Marco Polo's

Our pathway to independent living and employment The STEPS programme previously worked with Marco Polos restaurant last academic year, completing a four week programme. The students learned and experienced valuable, transferrable skills during this period and thoroughly enjoyed learning about hospitality. The owners Fred and Shelly were so impressed with our students skills, they have offered two young people work placements for this academic year on a weekly basis. We now have two students in there 3 days a week working in the kitchen.

We would like to thank Fred, Shelly and all their staff at Marco Polos for their continued support and partnership working with our young people.

And good luck with your new venture on the Marina!

Here we can see Byron and James hard at work this week! Keep it up lads!
