

Poolie Time Emporium

The STEPs students had a visit today from Dave Hunter (Project Manager) Poolie Time emporium. He explained about the different services Poolie Exchange had to offer to the people of Hartlepool, and how STEPs could work in partnership with them. Our young people are going to visit the different working site currently in use by Poolie Exchange and work alongside the other volunteers in a variety of roles. Today they visited the New Eco Shop to have a look around and to deliver some donations they had collected. They even went one step further and stacked their donations onto the shelves!! Well done gents!!
