

Wickets

On Tuesday three of our students from our STEPs programme, our pathway to independence and employment began working alongside Paul from Wickets. This is a charity that works with local young people across the north east teaching them the skills to play and enjoy cricket. Our students goal is to hopefully complete a qualification in cricket coaching. The students will be supporting the young people in the sessions that have been set up on an evening across three different sites in Hartlepool, so that it is accessible to anyone that wants to get involved. Our students enjoyed their first session and are looking forward to next week.

Paul has been fantastic and been into the college to meet our learners, explaining exactly what they would be doing. He has been teaching them cricket skills so that they can encourage and reinforce the skills that the young people across the town have been learning.

The STEPs programme will continue to work with Paul from Wickets across the next academic year. We would like to thank him and the charity in recognising the potential that our students have and we look forward to working together.
