

Employability and Training Hub Decoration

STEPS students, decorated our employment training hub ready for Christmas this term, they demonstrated a variety of skills and were able to give an example of each one that they had carried out

- Creativity - using their initiative, using their imagination to design the classroom.
- Organisation - they managed their time and met their deadlines.
- Responsibility – each one of the students did the best they could, and they stayed on task.
- Risk taking- they carried out tasks that they had never
- Evaluation – they identified what went well and what they could have done better.
- Communication – they not only communicated with each other and their familiar staff, but they communicated with staff in the stores they visited.
- Teamwork – they cooperated with each other and demonstrated respect for one another.

We are very proud of the students and everything they have done today. They have been applying many skills that can be transferred to their work and independent life.
