

Health and Social Care Work Placement

James, one of our STEPs learners is thoroughly enjoying his work placement through Marton Care Homes where he is working in West View Lodge as a Kitchen Assistant. His confidence has grown throughout his time on placement. He has developed not only his 'cooking skills' but also his work skills such as teamwork, following instructions. He has made lots of new friends and gets on well with staff and residents alike.

Well done James and thank you to the staff at West View Care home for their continuous support with our students
